Thematic Map Project Style Samples
Prepared by Emily Best

Design #1 uses an artistic approach with a watercolour inspired style for the land. Colours are for this map are inspired by the NunatuKavut Community Council logo.

Design #2 takes a more subtle approach with a gentle paper texture that resembles a fresh, light dusting of snow. A blue-grey colour scheme is also used to represent various shades of water and snow that can be seen throughout the seasons.

Design #3 is inspired by the prominent water features in this study area. Complimentary oranges and creams help the text and landforms stand out.

Design #4 features a bolder greyscale theme with pops of colour, and modern font styles.
